

Volcano Dreaming Worksheet Series

How do we connect with the land? **2. A Sense of Place.**

The display shows, directly or indirectly, many ways in which humans interact with the landscape. See if you can complete the table below.

Activity or Interaction	Good points	Bad points	Solution?
Example: Removing Rocks from paddocks.  Can you add more to this one?	Farmers can plough and plant profitable crops.	Habitat for native animals is destroyed. Weeds and vermin can invade.	Leave large connected areas for habitat. Co-operate in planning which areas can be cleared or left.
